RVS CET Central Library is using Knimbus eLibrary portal since January 2021, which provides their users all the knowledge available through the library on **anydevice from anywhere**. Knimbus platform is a complete Digital Library that provides all library services through a single platform rather than just being a list of links to separate publisher platforms. The embedded remote access feature of knimbus makes all resource links in the eLibrary including A-Z eCatalogue, Browse, Search and Remote Access pages work seamlessly whether the user is on campus or somewhere else and requires zero setup by the users.

The Mobile eLibrary App mLibrary offers a multi-format, content delivery App for users to consume eBook collections, eCourse materials, latest journal issues and multimedia learning content. Patrons can access the entire library on their smart phone from anywhere, at any time. The Mobile eLibrary App integrate the OPAC records so that patrons can check the availability of physical books. Knimbus Mobile App is available for both Android and iOS. A smartphone with internet connectivity is required to use the Mobile App.

Knimbus eLibrary is a cloud-based solution. Users require a good internet connectivity. Knimbus eLibrary Platform is built using leading edge frame works like parallel processing and open source tools to ensure tremendous performance, responsiveness, scalability and user friendliness.
